

Make your own

Bug Hotel

Build a bug hotel as a present for the creepy crawlies in an outdoor area!

What to do:

1. A little bit of space that is out of the way and won't be disturbed. (ask a grown up for permission to use the space)
2. Fallen logs, branches, bricks, soil, tree stumps, hay, tubes – all can be found when out and about on a welly walk in the woods. Make sure you only pick up natural materials and don't pull twigs or branches from trees.
3. Pile them up in sections so they don't collapse and squash the bugs!
4. Leave your Bug Hotel for a few weeks and then take a peek with a magnifying glass – you will be amazed at how many bugs now have a new home thanks to you!

They will help to keep your garden healthy

Bugs help to keep your garden healthy!
